

Installing Silverlight

Follow these steps to install the current version of Silverlight if you are prompted to install Microsoft Silverlight when you launch Dayforce WFM.

Internet Explorer:

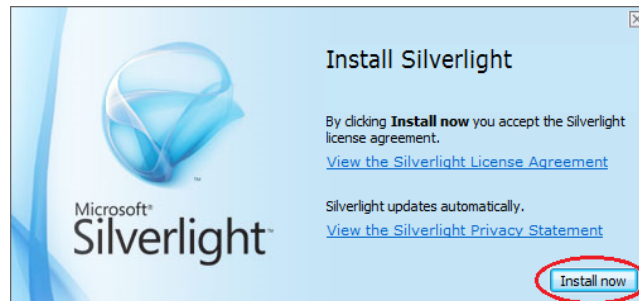

1. Click the **Install Microsoft Silverlight** button.

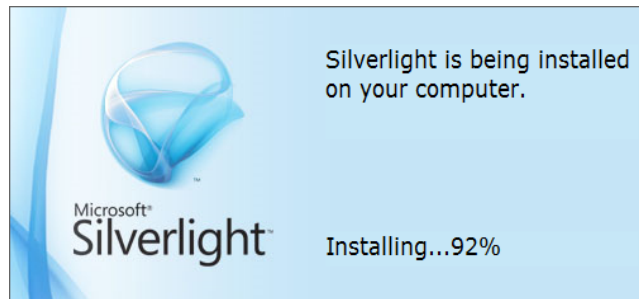

2. The File Download window will appear at the bottom of the browser, select **Run**.

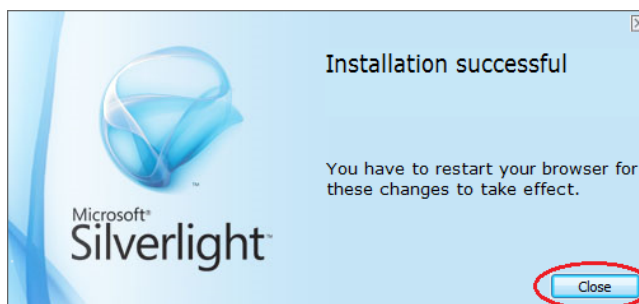

3. A prompt ask you to confirm installation. Click **Install now**.

4. Silverlight downloads to your computer. This may take a few minutes.

5. When it is finished you'll see the message "Installation successful." Click the **Close** button.

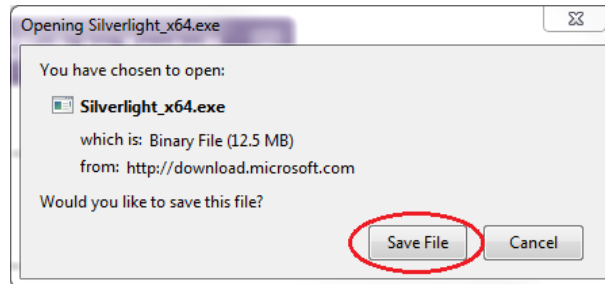

6. Now you can launch Dayforce. Visit the URL provided on the "Employee Resources" page on Imagine!'s website to log in.

Firefox:

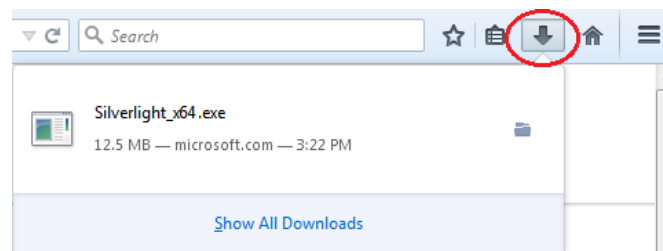

1. Click the **Install Microsoft Silverlight** button.

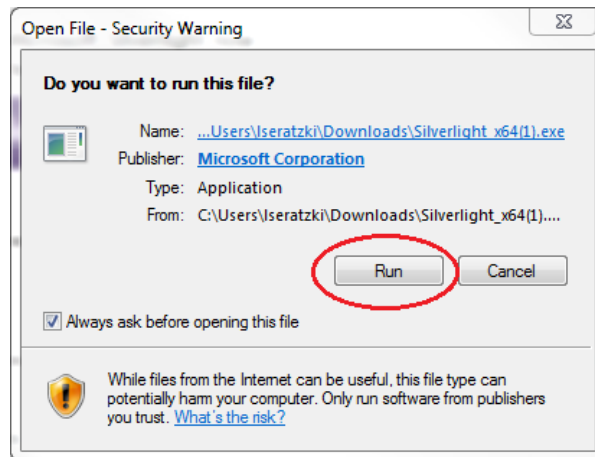

2. The File Download window displays, select **Save File**.

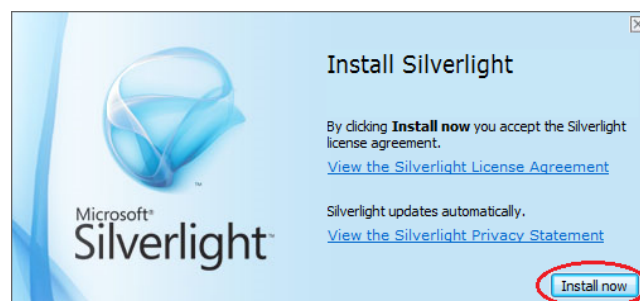

3. In the upper right hand corner of your browser select the download **drop down arrow** and double click **Silverlight_x64.exe**.

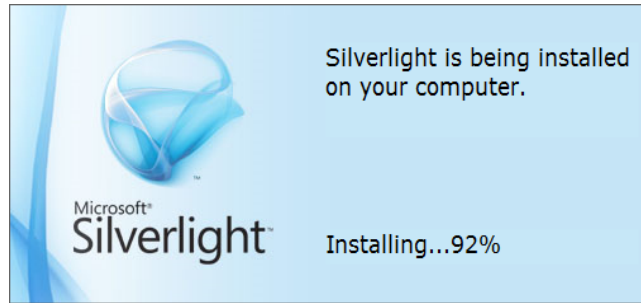

4. An "Open File – Security Warning" dialog box will prompt, select **Run**.

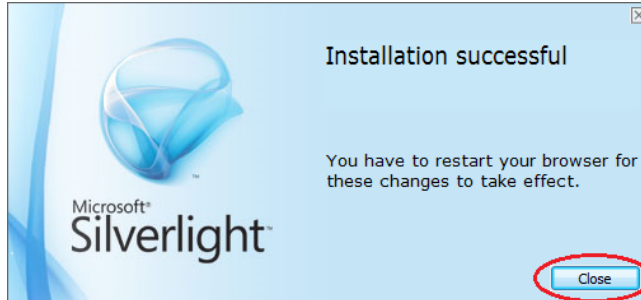

5. A prompt ask you to confirm installation. Click **Install now**.

6. Silverlight downloads to your computer. This may take a few minutes.

7. When it is finished you'll see the message "Installation successful." Click the **Close** button.

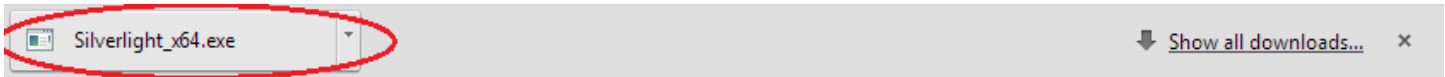

8. Now you can launch Dayforce. Visit the URL provided on the "Employee Resources" page on Imagine!'s website to log in.

Chrome:

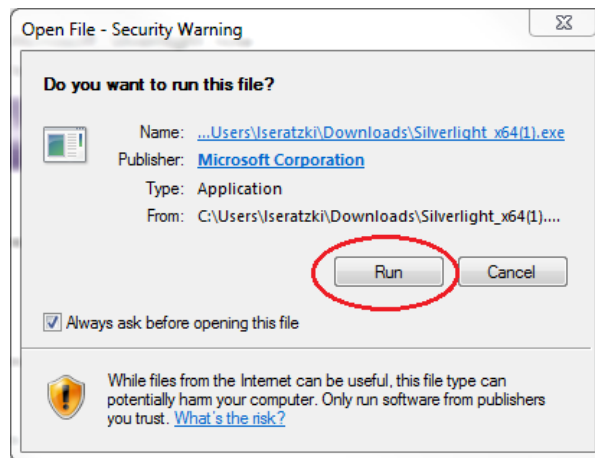

1. Click the **Install Microsoft Silverlight** button.

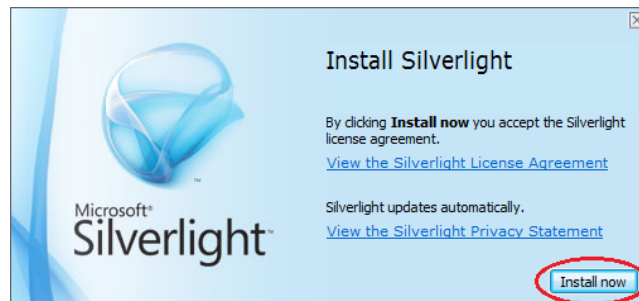

2. The File Download window displays at the bottom of the browser, select **Silverlight_x64.exe**.

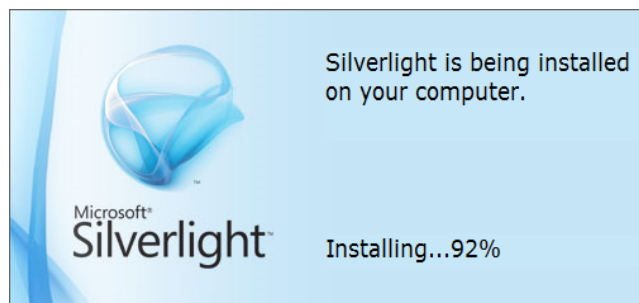

3. An "Open File – Security Warning" dialog box will prompt, select **Run**.

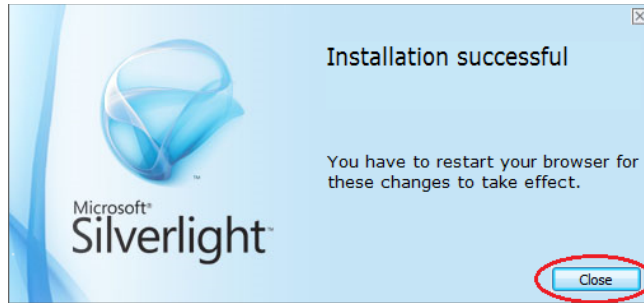

4. A prompt ask you to confirm installation. Click **Install now**.

5. Silverlight downloads to your computer. This may take a few minutes.

6. When it is finished you'll see the message "Installation successful." Click the **Close** button.

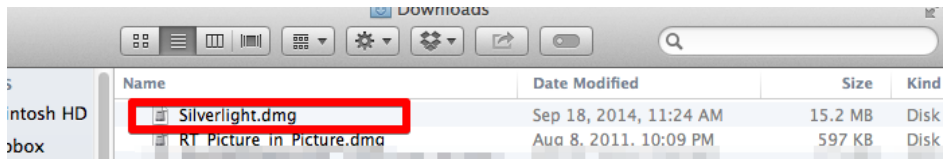

7. Now you can launch Dayforce. Visit the URL provided on the "Employee Resources" page on Imagine!'s website to log in.

Mac with Safari:

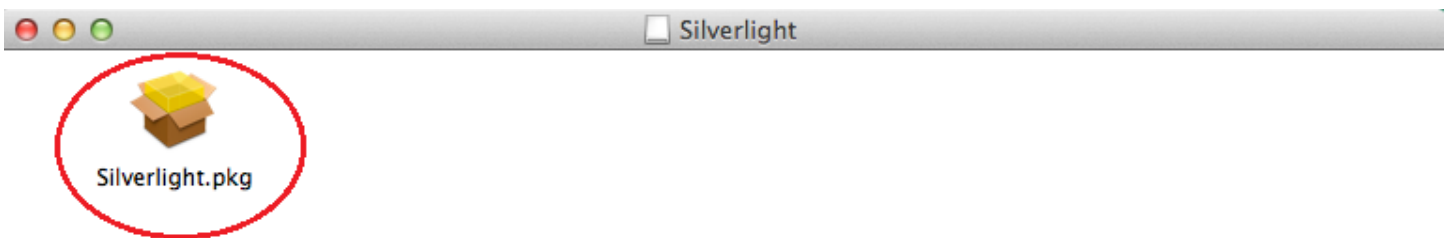

1. Click the **Install Microsoft Silverlight** button.

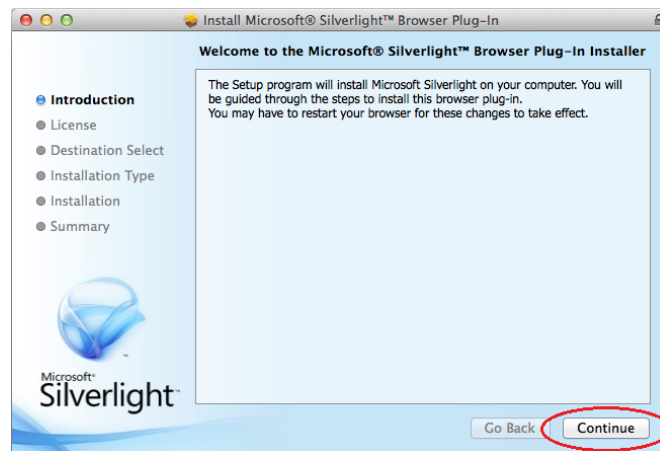

2. The Downloads Folder window will appear, double click **Silverlight.dmg**.

3. Another window will open, double click **Silverlight.pkg**.

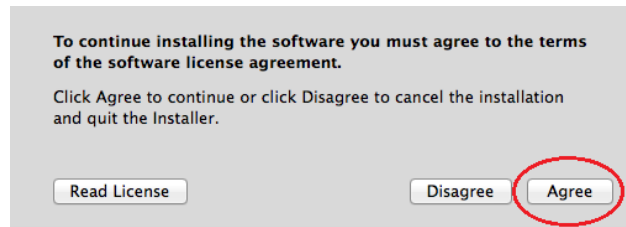

4. An install prompt ask you to continue installation, click **Continue**.

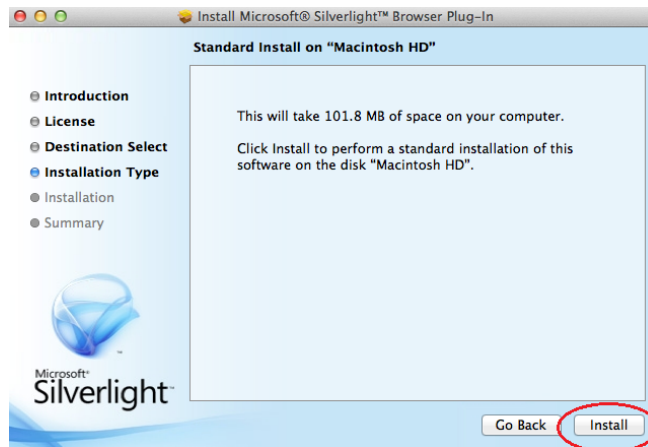

5. The software license agreement will prompt next, click **Continue**.

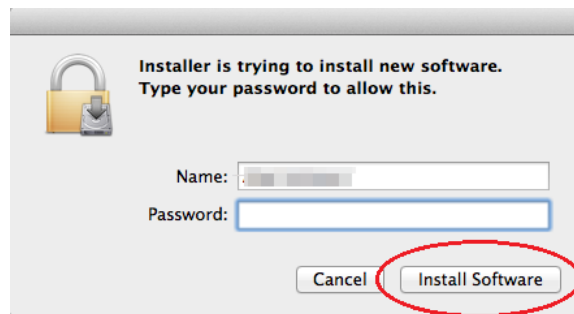

6. A software license agreement dialog box will appear, select **Agree**.

7. Next select the **Macintosh HD** for the destination, click **Continue**. On the following screen click **Install**.

8. At this point you will be prompted for your security credentials, enter your password and select **Install Software**.
