Key New Features

Add Pictures to Messages
Now you can embed pictures in your messages.

Advanced Search
Use Advanced Search button to further refine your search.

Attach Messages to Messages
Sometimes you want to send an attachment with a message. In the past, you could attach a picture, a Word document, an Excel spreadsheet, or almost any file available to you to a message. But you couldn't attach a message from inside your mailbox to a message you were composing until now.

Calendars Sharing
Outlook Web App allows users to share calendars with people inside the organization. You can now view multiple calendars side by side in Outlook Web App.

Conversation View
Message thread with common subject is grouped together as a single conversation to quickly identify the most recent messages and related responses. Conversation View is enabled by default.

Download Multiple Attachments
If you receive a message that has multiple attachments, you now have the ability to download all the attachments to your computer as a zip file.

Favorites
Favorites folder is added at the top of folder list to quickly access and manage your favorite folders.

Filter
A set of predefined filters has been added as a convenient drop-down menu to refine your search.

Find Someone
Search for people in the address book and view their availability without opening new meeting request.

Options Settings Menu
Use enhanced Options settings menu to customize your Outlook Web App.

Right-clicking
Right-clicking almost anywhere in Outlook Web App will display a menu of things you can do. The actions available in the right-click menus have been expanded and made more consistent across your mailbox. Right-click a message, a folder, or a calendar entry to see the options that are now available.

Scheduling Assistant/Suggested Times
Use the Scheduling Assistant to schedule meetings with people inside and outside the organization and view attendees free time using Suggested Time.
GETTING STARTED WITH OUTLOOK

Logging into Outlook Web App

1. Type the following link into your browser’s address bar:
   https://email.imaginecolorado.org/owa
   The Outlook Web App login window opens

2. Type in the username and password that you use to log into the network
   The Outlook Web App window opens

Note:
There is a "light" version of Outlook Web App which is optimized to support users who are blind or have low vision. It is found under the gear icon -> Options -> General -> Light version.

Compatibility:
Advanced or 'Premium' features previously only available in Microsoft Internet Explorer are now also compatible with Mozilla Firefox, Apple Safari and Google Chrome through the portal.
Logging out of Outlook Web App

1. Click on your image in the top right corner and then select "Sign out"

   You are then taken back to the sign-in page

   ![Outlook Web App sign-in page](image)

2. Click **Close Window** button

   Windows Internet Explorer dialog box appears

   ![Windows Internet Explorer dialog box](image)

   **Note:** This dialog box will appear when multiple browser tabs are open.

3. Click **Yes**

   **Note:** Always Sign Out and close the browser tab after every OWA session

WORKING WITH MAIL MESSAGES

Right-clicking a Message

More options are available when you right-click a message

![Outlook inbox with right-click options](image)
**Working with Message Options**

1. Open a new message window.

2. Click the three dots icon to open the message options menu.

   *Message Options dialog box opens*

   ![Message Options dialog box](image)

   - More actions
   - Insert signature
   - Show From
   - Check names
   - Set importance
   - Set permissions
   - Switch to plain text
   - Show message options...
   - Check for accessibility issues

3. Set the desired options by clicking the appropriate drop-down menu or checkbox.

**Opening and Saving Attachments**

**Download Multiple Attachments**

1. Open email with multiple attachments.

2. Click **Download all attachments** at the top of the attached files in the Attachments box.

   *File Download dialog box appears*

3. Click **Save**

4. Browse to the folder where you would like the files saved.

   **Note:** Save as type is Compressed (zipped) Folder.

5. Click **Save**

   *Download complete dialog box appears*

6. Click **Close**

   **Note:** To extract the zip file, right-click the zip file and click **Extract All...** then follow the steps in the Extract Wizard window.
**Inserting Attachments**

**Adding an Attachment**
1. With the new email window open, click on the Attach button

![Attach button](image)

2. A file explorer window will then open allowing you to browse to the location of the item(s) you are wanting to attach.

![File explorer](image)

3. Select the file(s) you are wanting to attach and click Open.

**Add Pictures to Messages**
1. Click **Insert Picture** on the message toolbar
2. Search for the picture you want to add to your message
3. Double-click the picture to add it to your message

**MANAGING MAIL MESSAGES**

**Favorites Folder**
You might have noticed a new folder named Favorites at the top of your folder list. You can drag any folder up to Favorites to create a shortcut to that folder.
**Sorting Messages with Conversation View Enabled**

1. Click the Filter drop-down  
   *List of sort criteria options appears*

   ![Filter Drop-down](image)

   **Note:** Conversation View is enabled by default. Messages are grouped together by a common Subject

2. Select the desired sort criteria option from the pre-defined list

**Disable Conversation View:**

1. Click above the Filter drop-down  
   *List of sort criteria option appears*

2. Click on Messages to change to message view  
   *Messages will be arranged by date; most current item on top of the Item List*

---

**Searching and Filtering Messages**

**Using the Instant Search box**

1. Click in the *Instant Search* box below the menu  
2. Type the search criteria  
3. Press *Enter*
