

Summer Camp Starter Sheet

We offer a unique Summer Camp for school-aged children (7-21 years old) with developmental disabilities who will benefit from participation in the community. We offer specialized services in small group settings that work towards individualized goals. ***Participants must be able to cooperate safely in small group settings and travel safely in the community.** We utilize Therapeutic Recreation as a framework for our activities and practice positive instruction in order to encourage community participation, socialization, communication, health, safety and the achievement of individual goals. Imagine!'s Summer Camp promotes the health, strengths, and abilities of all participants.

Imagine! Summer Camp will be June 7 – August 13, 2021. The deadline to register is Monday, March 8, 2021.

New to Imagine!'s School Age Services?

Please look over Imagine!'s Intake Process at <https://imaginecolorado.org/services/intake-into-services>.

To learn more about enrolling in Summer Camp, please contact Ryann Mickens, Imagine! School Age Services Assistant Manager, directly at rmickens@imaginecolorado.org.

Once Ryann is contacted, she will reach out to send you an initial intake form and schedule a Meet & Greet with one of our Certified Therapeutic Recreational Specialists to make sure our services best meet the needs of your child. The deadline to schedule a Meet & Greet is March 8.

At the Meet & Greet we will go over our School Age Services Handbook, Summer Camp schedule, registration process, and discuss goals as well as your child's interests.

Returning to Imagine!'s School Age Services?

Welcome back! We would love for your child to join us for Summer Camp this year. Please reach out to our coordinator, Kyle Sayers at ksayers@imaginecolorado.org for this year's Summer Camp registration forms.

If your child has not attended our services for the last **two years**, we do ask that you set up a short Meet & Greet to update any changes of your child's individual plan, supports, and goals.
